ORGANISE A STAY IN ALL SERENITY

The schools of the FLE group organize group stays for juniors, students and adults.

Our schools are used to welcoming young people.

Everything is set up so that they can enjoy a pleasant linguistic stay in complete serenity, supervised by competent personnel, whether at the school or during the cultural and sporting activities outside.

During their stay your students can combine sports or cultural activities with their language course or opt for courses preparing students for official exams such as the Delf, Dalf/TCF and TEF.

All our member schools offer cultural activities such as visits of the city and the region. Students have the opportunity not only to learn the French language but will have plenty of chances to discover French culture and local tourist sites.

SUMMARY

The following table provides all the information you need to find the right language program for you.

Almost all of our centers offer a personalized stay according to your needs and your means.

Travel regulations

Since June 9, 2021, the flow of travelers between France and foreign countries is reopened according to modalities that vary according to the health situation of third countries and the vaccination of travelers.

A classification of countries has been defined on the basis of health indicators. It may be adapted according to the evolution of the epidemic situation.

Since July 1, the "European pass", also known as the "EU digital COVID certificate", has been in use in all Member States, with a transition period of six weeks. It is intended to be used legally until June 30, 2022.

In order to facilitate the stay in France of tourists from outside the EU, the Ministry of Europe and Foreign Affairs has put in place since August 9, 2021 a specific system to obtain a QR code valid as a vaccination equivalence health pass on French territory.
